Data Sources

Surface geology data were compiled from the following sources:
- Federal, D., C.C. Abert, and T. Larson, 2016, Map 3: Surficial geology with shaded relief, the National Geospatial-Intelligence Agency, the German Aerospace Center, and (SRTM), a cooperative project among the National Aeronautics and Space Administration, the National Geospatial-Intelligence Agency, the German Aerospace Center, and the Geoscience Research Division, U.S. Geological Survey, The National Map, seamless server (http://seamless.usgs.gov), accessed July 2016.

Surface elevation data were derived from the Shuttle Radar Topography Mission (SRTM), a cooperative project among the National Geospatial-Intelligence Agency, the National Aeronautics and Space Administration, the National Geospatial-Intelligence Agency, and the Federal Geographic Data Committee, which was acquired and processed by NASA from the U.S. Geological Survey’s The National Map, seamless server (http://seamless.usgs.gov) as of August 2001.
